INTERNATIONAL PRELIMINARY EXAMINATION REPORT

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference T10106.PCT	FOR FURTHER ACTION See Notification of Transmittal of International Preliminary Examination Report (Form PCT/IPEA/416)	
International application No. PCT/US03/07246	International filing date (day/month/year) 07 March 2003 (07.03.2003)	Priority date (day/month/year) 07 March 2002 (07.03.2002)
International Patent Classification (IPC) or national classification and IPC IPC(7): B32B 5/14, 27/00; H04R 25/00 and US Cl.: 428/308.4, 500; 381/328		
Applicant BRIGHAM YOUNG UNIVERSITY		

1. This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36.

2. This REPORT consists of a total of 3 sheets, including this cover sheet.

☐ This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT).

These annexes consist of a total of 5 sheets.

3. This report contains indications relating to the following items:

- I ☒ Basis of the report
- II ☐ Priority
- III ☐ Non-establishment of report with regard to novelty, inventive step and industrial applicability
- IV ☐ Lack of unity of invention
- V ☒ Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
- VI ☐ Certain documents cited
- VII ☐ Certain defects in the international application
- VIII ☐ Certain observations on the international application

Date of submission of the demand 07 October 2003 (07.10.2003)	Date of completion of this report 20 January 2004 (20.01.2004)
Name and mailing address of the IPEA/US Mail Stop PCT, Attn: IPEA/US Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450 Facsimile No. (703)305-3230	Authorized officer Kevin Kruer Telephone No. 703-308-0661

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/US03/07246

I. Basis of the report

1. With regard to the elements of the international application:*

- ☒ the international application as originally filed.
- ☒ the description:
 pages 1-12 as originally filed
 pages NONE, filed with the demand
 pages NONE, filed with the letter of _____.
- ☒ the claims:
 pages 13-20, as originally filed
 pages NONE, as amended (together with any statement) under Article 19
 pages NONE, filed with the demand
 pages NONE, filed with the letter of _____.
- ☒ the drawings:
 pages 1-2, as originally filed
 pages NONE, filed with the demand
 pages NONE, filed with the letter of _____.
- ☐ the sequence listing part of the description:
 pages NONE, as originally filed
 pages NONE, filed with the demand
 pages NONE, filed with the letter of _____.

2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language _____ which is:

- ☐ the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in printed form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. ☐ The amendments have resulted in the cancellation of:

- ☐ the description, pages NONE
- ☐ the claims, Nos. NONE
- ☐ the drawings, sheets/fig NONE

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.
PCT/US03/07246**V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement****1. STATEMENT**

Novelty (N)	Claims <u>1-74</u>	YES
	Claims <u>NONE</u>	NO
Inventive Step (IS)	Claims <u>1-74</u>	YES
	Claims <u>NONE</u>	NO
Industrial Applicability (IA)	Claims <u>1-74</u>	YES
	Claims <u>NONE</u>	NO

2. CITATIONS AND EXPLANATIONS

Claims 1-74 meet the criteria of PCT Article 33(4) because the article has use as a hearing aid.

Claims 1-74 meet the novelty and inventive step criteria under PCT Article 33(2) because the prior art fails to teach an in-the-ear hearing aid comprising an earmold body having hearing aid electronics disposed therein, and having a hydrogel coating disposed on said earmold body such that at least a portion of the earmold body that comes in contact with the ear canal is coated with the hydrogel. The closest prior art (US 6,137,889 A) teaches that hearing aids typically use rigid enclosures made of relatively thick material to encapsulate and protect internal electronic components (col 13, lines 5+). US 6,137,889 A further teaches that hearing aids may be coated with an interface contact coating to enhance the mechanical interface with the ear canal (col 8, lines 48+). Suitable coatings include biocompatible gels, oils, or the like (col 8, lines 59+).

The prior art fails to teach that said coating should comprise a hydrogel. Furthermore, the prior art fails to teach that a hydrogel coating may be applied to an in-the-ear hearing aid by preparing a negative mold of a person's ear canal, filling the negative mold at least partly with a hydrogel formulation, polymerizing the hydrogel formulation for a time sufficient to form a thin hydrogel layer adjacent to the negative mold, and then filing the mold with an ear-mold forming material.
